Dear Friends:

City Plants will be hosting a cocktail party on April 25, from 5:30-7:30p to help raise awareness. I will be recognized alongside Nancy Sutley and Bill Funderbuck, and would love to have you join us!

Here are some facts regarding the City's tree canopy:

- It's estimated that between 1/3 and 1/2 of LA's street trees will die in the next 40 years because 42% of LA's trees are over 60 years old.
- There are huge canopy disparities between neighborhoods, with the highest at 37% tree cover and the lowest at 5% tree cover.
- City Plants works to plant and give away between 15,000 and 20,000 trees each year.

City Plants is the lynchpin for tree planting in Los Angeles, bringing together seven non-profit organizations and multiple City agencies to attract and direct grants towards planting new trees.

Thank you for your consideration! You and any guests can purchase tickets at our EventBrite Page: <http://tinyurl.com/CityPlantsParty>

Best,
